

Village Recorder report for Levington and Stratton Hall Annual Parishes Meeting
May 21st 2025.

Producing a report on what may be happening in the future, is something of a novelty for someone involved with researching what has happened in the past! However, it can be said with some certainty (and without the assistance of a crystal ball) that the following activities will continue for the next twelve months:

- maintaining the village diary;
- making daily weather observations (temperature, precipitation, wind speed and direction, snow depth, general observations);
- receiving, storing, and cataloguing items for the village archives;
- assisting those carrying out their own research;
- keeping an eye on various online auction sites for items relating to Levington and Stratton Hall;
- writing a yearly report for the Village Recorder scheme;
- submitting articles for the Parish Council newsletter.

There are no plans at this time for any further events/displays such as those that took place for the VE80 celebrations. It is possible that something may come up during the next year that would lead to a change in this position, but it's very much wait and see!

Louise Mann 15th May 2025.
